

U.S. Short-Term High Yield Bond Fund

OBJECTIVES AND PROCESS

- Seeks total return consisting of a high level of current income and capital appreciation.
- Invests at least two-thirds of its assets in corporate debt securities that are below investment grade or, if unrated, of comparable quality, principally invested in below-investment grade-debt rated BB or B or equivalent.
- Uses bottom-up fundamental credit analysis to generate new ideas and identify individual securities with good income and/or capital appreciation prospects.
- The fund may invest:
 - up to 25% of its assets in US\$-denominated debt securities of non-US issuers
 - up to 20% of its assets in asset-backed securities
 - using futures/derivatives for hedging, efficient portfolio management or for investment purposes

KEY RISKS

Debt securities risk: debt securities are subject to credit risk and interest rate risk and are affected by an issuer's ability to make interest payments or repay principal when due. **High yield securities risk:** high yield securities are rated below investment grade, are predominantly speculative, have a much greater risk of default and may be more volatile than higher-rated securities of similar maturity. **Geographic concentration risk:** investments concentrated in specific geographic regions and markets may be subject to greater volatility due to economic downturns and other factors affecting the specific geographic regions. **Asset-backed securities risk:** asset-backed securities may be more sensitive to changes in interest rates and may exhibit added volatility, known as extension risk, and are subject to prepayment risk.

Distribution information

	Distribution yield	Last payment amount	Last paid date	Frequency
Class I (USD) Gross distributing	6.59%	0.43	9 Apr 2024	Monthly

The distribution yield is based on the actual income distributions paid by the fund. The distribution yield is calculated by annualising the fund's most recent income distribution and dividing that figure by the applicable share price.

The Fund is not managed in reference to a benchmark.

1. Subject to the discretion of the Board of Directors to determine otherwise, shareholders should note that the dealing deadline is by the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) for all applications for subscription, redemption and switching that are sent directly to and received by the registrar and transfer agent. For all such applications that are sent to and received by the Hong Kong representative, the Hong Kong dealing deadline will apply and such applications will be processed by reference to the net asset value per share of the relevant class of the relevant sub-fund determined as at the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) later that valuation day (or, if that day is not a valuation day, on the next day that is a valuation day). Applications for subscription, redemption and switching that are sent to and received by the Hong Kong representative after such Hong Kong dealing deadline (or on a day that is not a Hong Kong business day) will be forwarded to the registrar and transfer agent on the next Hong Kong business day, to be effected on the next valuation day. A business day shall be a day on which banks in Luxembourg and the NYSE are open for business. For the avoidance of doubt, half-closed bank business days in Luxembourg are considered closed for business.

[†]While the Sub-Funds listed above have access to both internal and external ESG research and integrate financially material sustainability risks into their investment decision-making processes, ESG-related factors are considered but not determinative, permitting the relevant Sub-Investment Managers to invest in issuers that do not embrace ESG; as such, sustainability risks may have a more material impact on the value of the Sub-Fund's investments in the medium to long term. The investments underlying these Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.
